Wyoming 1959

Annual Report

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL STABILIZATION & CONSERVATION
P. O. BOX 1211, CASPER, WYOMING

C O N T E N T S

FORWARD	1
MAP OF WYOMING	2
PART I Agricultural Conservation Program	3 - 24
PART II Sugar Beet Program	25 - 30
PART III Wheat Allotment & Marketing Quota Program	31
PART IV Commodity Price Support Program	32 - 47
PART V National Wool Act Program	48 - 52
PART VI Soil Bank Program	53 - 59
PART VII Federal Crop Insurance Program	60

- - - - -

F O R E W O R D

This report is issued annually by the Wyoming State Agricultural Stabilization and Conservation Committee to summarize the accomplishment of the programs administered by ASC Committees in the State of Wyoming. The report has been prepared especially for those interested in agriculture in this area and has been divided into seven parts:

- I - Agricultural Conservation Program
- II - Sugar Beet Program
- III - Wheat Allotment & Marketing Quota Program
- IV - Commodity Price Support Program
- V - National Wool Act Program
- VI - Soil Bank Program
- VII - Federal Crop Insurance Program

These programs have had far reaching effects in the economy of farmers in this State. Agricultural Conservation Program assistance to farmers in conserving soil, promoting sound farming practices and providing financial assistance to farmers on projects that they could not otherwise complete; Sugar Beet Program - payment to growers who comply with minimum wage rates, child-labor regulations and proportionate shares; Price Support Programs - stabilization of price for commodities with commodity loans and purchase agreements; Soil Bank Programs - sound acreage adjustments, and soil, water, and wildlife conservation practices; Federal Crop Insurance Program - crop insurance for farmers against losses beyond the control of the farmer.

We wish to take this opportunity to express our appreciation to the county and community ASC committees for the work that they have done in making these programs successful.

WYOMING ASC STATE COMMITTEE

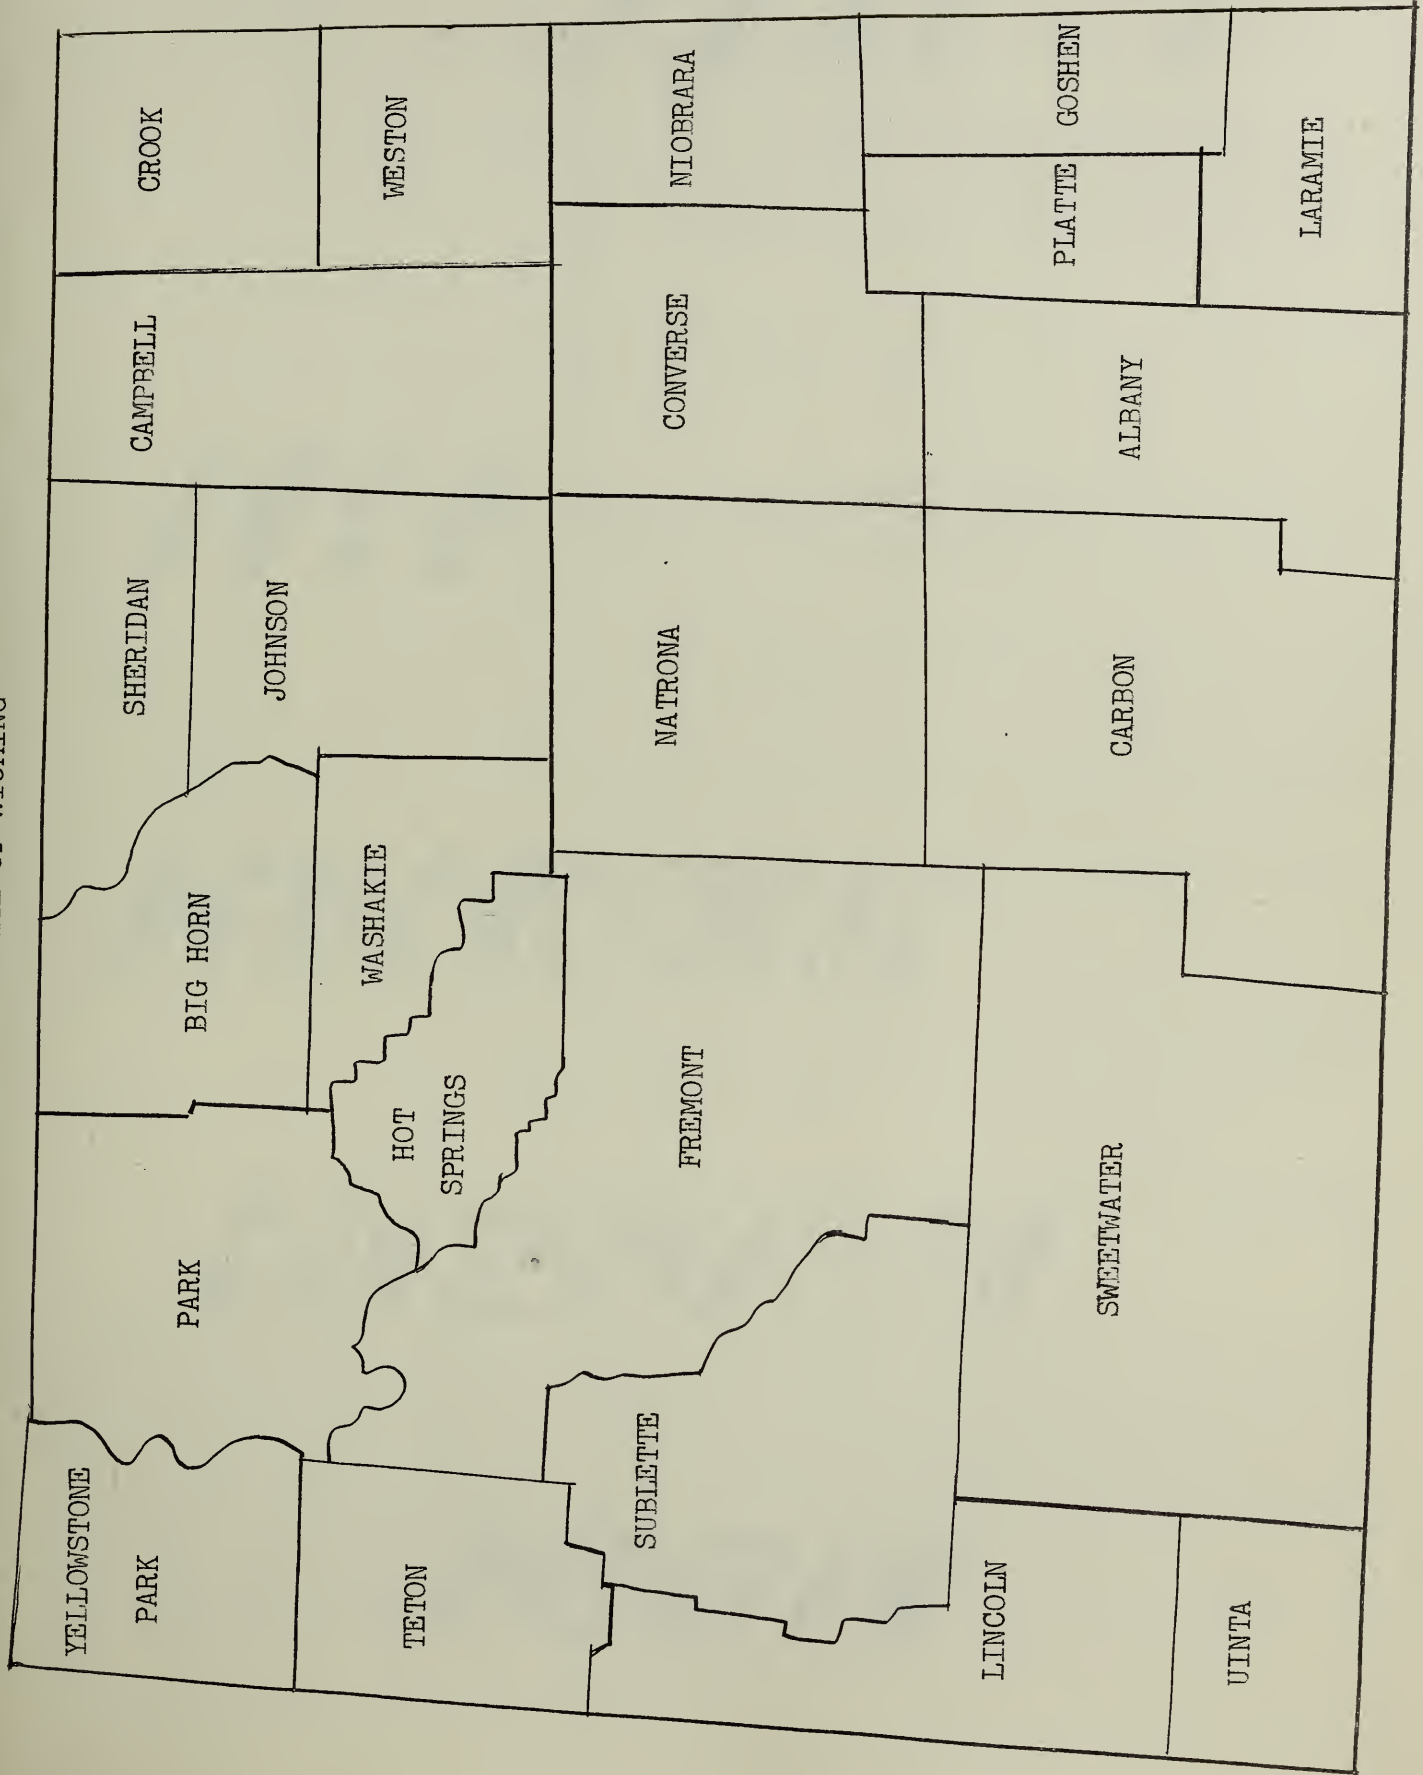

Staley Archibald, Chairman
Gillette, Wyoming

Jay B. Brown, Member
Pine Bluffs, Wyoming

Bruce Murray, Member
Star Route
Powell, Wyoming

G. H. Starr, Director
Wyoming Extension Service
University of Wyoming, Member

STATE OF WYOMING

PART 1

1959

AGRICULTURAL

CONSERVATION

PROGRAM

The Congress appropriated 250 million dollars for the 1959 ACProgram for the purpose of assisting farmers and ranchers in carrying out needed conservation work to protect the public's interest in our agricultural land and water resources. Under the direction of the State and county ASC committees, the Wyoming appropriation of \$2,145,000 was expended in the following manner:

- \$ 2,046,445 - - was paid to 3,932 producers for the completion of approved conservation practices.
- 6,476 - - was expended for program service consisting of:
 - (1) salary and travel of employees on the ASC county office payroll but under the supervision of the Soil Conservation Service (SCS) for assisting the SCS
 - (2) for ASC supervision and layout of certain range practices and
 - (3) supplies (mostly stakes) used by the SCS on certain ACP practices.
- 88,781 - - was paid to the Soil Conservation Service for providing technical assistance to producers as a guide in the installation of specified practices. This responsibility included:
 - (1) a finding that the practice was needed and practicable on the farm,
 - (2) necessary site selection and other preliminary work, and layout work for the practice,
 - (3) necessary supervision of the installation, and
 - (4) certification of performance.
- 2,145 - - was expended for conservation materials and services incorporated into practices which were not completed at the end of the program year but which will be completed during 1960.
- 1,153 - - was not expended because some producers having approved practices failed to complete and qualify same for cost sharing.

Again, in 1959, community projects were an important part of the total conservation program. There were 107 pooling agreements carried out benefiting 804 farms in 18 counties. Encouraged by program assistance, producers participating in these pooling agreements carried out certain practices to a much greater extent than the extent on which cost sharing was based. Accordingly, the total conservation accomplishment under these agreements was much greater than is indicated by the ACP cost sharing.

The following tables depict, county by county, the total accomplishment under the 1959 ACProgram:

AGRICULTURAL CONSERVATION PROGRAM - 1959
NUMBER OF FARMS AND ACREAGES OF FARMLAND, CROPLAND, GRAZING LAND,

The following is a list of the names of the persons who have been appointed to the various positions of the Board of Directors of the City of New York, for the year ending December 31, 1900.

Position	Name
President	John A. B. Smith
Vice-President	John A. B. Smith
Secretary	John A. B. Smith
Treasurer	John A. B. Smith
Members	John A. B. Smith

JOHN A. B. SMITH, Mayor of the City of New York.

CONDENSED SUMMARY OF THE 1959 ACP AND COMPARISON
WITH THE 1957 AND 1958 ACP

WYOMING

PARTICIPATION AND AMOUNT OF ASSISTANCE

ITEM	1957 ACP	1958 ACP	1959 ACP
Estimated total number of farms in state	No. 11,145	No. 11,113	No. 11,099
Number of farms receiving ACP cost-share assistance	No. 4,523	No. 4,119	No. 4,148
Acreage of farmland on participating farms	Acre 12,287,704	Acre 11,956,003	Acre 11,903,812
Portion of total farmland	36 %	35 %	35 %
State allocation	\$ 2,134,000	\$ 2,140,000	\$ 2,145,000
Amount used (including unused CMS charges)	\$ 2,133,764	\$ 2,138,620	\$ 2,143,847
Portion used	100 %	100 %	100 %
Amount used for cost-shares	\$ 2,029,535	\$ 2,024,810	\$ 2,046,445
Amount used for program services and CMS - ND	\$ 5,370	\$ 5,904	\$ 6,476
Amount used for SCS (5%) agreements	\$ 93,047	\$ 97,534	\$ 88,781
Amount used for (1%) agreements with other agencies	\$ 0	\$ 0	\$ 0
Small cost - share increases (excluding amount advanced with unused CMS)	\$ 21,721	\$ 16,962	\$ 17,986
Total gross assistance (excluding unused CMS charges and SCS advanced with unused CMS)	\$ 2,149,673	\$ 2,145,210	\$ 2,159,688
Average total gross assistance per farm	\$ 475	\$ 521	\$ 521

PART II

1959

SUGAR

BEET

PROGRAM

The Wyoming State ASC Committee called a meeting of the State Sugar Beet Recommendation Group to be held November 20, 1958. The purpose of this meeting was to obtain recommendations from the group to formulate the 1959 State Sugar Beet Program. This group consisted of county office managers, county committeemen, sugar beet grower association members, representatives from the sugar beet companies, State office personnel, a representative from the Sugar Division, and the Wyoming ASC State Committee.

Having heard recommendations from all the group, the Wyoming State Committee formulated the policies which governed the operation of the 1959 sugar beet program.

The State received a State allocation of 38,552 acres of beets. This acreage was allocated to the Holly and Great Western factory areas on the basis of the average of the smaller of the accredited acreage for the years 1955, 1956, and 1957 or the average county area allocation for the same three years. The Holly area received 27,818 acres and the Great Western area received 10,734 acres.

The allocation was allotted to old producers on the basis of the average accredited acres for the years 1955, 1956, and 1957. After taking a one percent reserve for new growers and one percent reserve for appeals and corrections, old growers received 10,515 acres in the Great Western area and 27,262 acres in the Holly area.

Sugar beets produced in the State of Wyoming were delivered to six factories, three in the State and three out of State, as follows:

Lovell	-	Great Western
Worland	-	Holly
Torrington	-	Holly
Hardin, Montana	-	Holly
Gering, Nebraska	-	Great Western
Mitchell, Nebraska	-	Great Western

There was a total of 1073 old growers requesting 48,101 acres of beets under the 1959 Sugar Program. The total State allocation was planted under the 1959 Sugar Program. 1959 sugar beet payments were made to all growers in the State by February 1, 1960. The payments made under the sugar program are conditioned upon the producers' compliance with child labor provisions and for fair wage rate provisions of the Sugar Act. There were no violations of these provisions under the 1959 Sugar Beet Program. The tables following this narrative give a complete summary of the 1959 Sugar Beet Program.

1959 crop of sugar beets.

PART III

1959

WHEAT ALLOTMENT &

MARKETING QUOTA

PROGRAM

1960-Crop

Wheat Acreage Allotment

Secretary of Agriculture, Ezra Taft Benson, exercised his authority under the law and proclaimed wheat acreage allotments in effect for the 1960-crop year. The national allotment of 55,000,000 acres was apportioned among the several States on the basis of the average of the average 10-year seedings (1948-1958) and the 5-year average seeding (1954-1958) adjusted for trend. As a further adjustment for trend, the 1960 final base could not exceed 120 percent of the 1955-1958 average seedings, nor could it be less than 80 percent of the 1955-1958 average seedings.

Wyoming received 284,954 acres as its share of the national allotment. This compared with 289,527 acres received under the 1959 program.

The State committee apportioned the State wheat allotment to the counties on the same basis as the national allotment was apportioned to the States. A reserve for new growers of 300 acres and a reserve for appeals and corrections of 200 acres was held at the State level. This left 284,454 acres to be allocated to the counties. The following table shows the distribution of the 1960 State wheat allotment to the counties:

<u>County</u>	<u>1960 Wheat Acreage Allotment</u>	<u>County</u>	<u>1960 Wheat Acreage Allotment</u>

		Reserve, Appeals and Corrections	200
		TOTAL STATE ALLOCATION	<u>284,954</u>

PART IV

1959

COMMODITY

PRICE SUPPORT

PROGRAM

Under the legislation, in operation on the 1959 crops, support prices were available to producers of many agricultural commodities. In general, the price supports are achieved by loans on the commodities, agreements to purchase the commodities (purchase agreements), direct purchases of commodities to bolster slipping prices, and through a combination of these methods. The county and State offices in Wyoming were primarily active in the commodity loan and purchase agreement programs.

SUPPORT RATES ON 1959-CROP COMMODITIES BY COUNTIES.--The following basic county support rates were established for 1959-crop commodities with small adjustments for premiums and discounts due to variations in grade:

COUNTY	US #2 or better Barley (bu)	US #1 G. N. Beans (cwt)	US #1 Pinto Beans (cwt)	US #3 or better Corn (bu)	US #1 Flaxseed (bu)	US #2 or better Grain Sorghums (cwt)	Honey (lb)	US #3 or better Oats (bu)	US #2 or better Rye (bu)	US #1 Wheat (bu)
Albany	\$0.64	\$5.63	\$4.93	\$1.14	\$1.99	\$1.34	\$0.087	\$0.49	\$0.79	\$1.67

Niobrara	.66	5.63	4.93	1.14	1.99	1.34	.087	.49	.79	1.69
Park	.55	5.63	4.93	1.14	1.99	1.34	.087	.49	.79	1.56
Platte	.69	5.83	5.13	1.14	1.99	1.34	.087	.49	.79	1.73
Sheridan	.60	5.63	4.93	1.14	1.99	1.34	.087	.49	.79	1.62
Sublette	.54	5.63	4.93	1.14	1.99	1.34	.087	.49	.79	1.54
Sweetwater	.54	5.63	4.93	1.14	1.99	1.34	.087	.49	.79	1.54
Teton	.66	5.63	4.93	1.14	1.99	1.34	.087	.49	.79	1.60
Uinta	.54	5.63	4.93	1.14	1.99	1.34	.087	.49	.79	1.54
Washakie	.56	5.63	4.93	1.14	1.99	1.34	.087	.49	.79	1.56
Weston	.65	5.63	4.93	1.14	1.99	1.34	.087	.49	.79	1.56

The above county support rates were based on national support rates announced as follows:

Commodity	U.S. Grade	National Rate	Percent of Parity as of Date Shown
Barley	#2	\$0.97 Bu.	60% of 2-1-59 Parity
G. N. Beans	#1	* 5.35 Cwt.	60% of 2-1-59 Parity
Pinto Beans	#1		
Corn	#3	1.12 Bu.	65% of 10-1-59 Parity
Flaxseed	#1	2.38 Bu.	60% of 2-1-59 Parity
Grain Sorghums	#2	1.52 Cwt.	60% of 2-1-59 Parity
Honey	C	0.083 Lb.	60% of 4-1-59 Parity
Oats	#3	0.50 Bu.	60% of 2-1-59 Parity
Rye	#2	0.90 Bu.	60% of 2-1-59 Parity
Wheat	#1	1.81 Bu.	75% of 7-1-59 Parity

*Average for 11 classes of dry beans

COMMODITY LOAN PROGRAM--Under the loan program the support price was available to December 31, 1959 on honey, until May 31, 1960 on corn, and to January 31, 1960 on all other crops for any grower who had an eligible commodity in approved storage. The grower retained ownership of the commodity for later marketing when this was to his advantage. The Commodity Credit Corporation funds loaned were protected by the producer's note and supplemental loan agreements, and a commodity chattel mortgage in the case of commodities stored on the farm. Warehouse-stored commodities were covered by warehouse receipts and the producer's note and loan agreements as protection for the CCC funds loaned.

The loans on wheat and grain sorghums matured on March 31, 1960; corn loans matured on July 31, 1960 and loans on all other commodities matured on April 30, 1960.

Thirty days prior to maturity of the loan, the borrower was notified that the loan would mature in 30 days. The borrower had two alternatives on the 1959-crop commodities: (1) to pay the loan in full plus $3\frac{1}{2}$ percent interest, or (2) deliver the commodity to CCC. For wheat, barley, and corn, the borrower had a third alternative in that he could reseal the commodity for another year. The State results are as follows:

Commodity	Quantity Placed Under Loan	Quantity on Which Loan Was Repaid	Quantity Resealed	Quantity Delivered to CCC
Wheat	1,004,233 Bu.	308,483 Bu.	239,800 Bu.	455,950 Bu.
Dry Edible Beans	208,911 Cwt.	208,911 Cwt.	0	0
Barley	24,353 Bu.	17,810 Bu.	6,543 Bu.	0
Oats	23,519 Bu.	23,519 Bu.	0	0
Rye	10,814 Bu.	1,800 Bu.	0	9,014 Bu.
Corn	17,937 Bu.	9,425 Bu.	0	8,512 Bu.

FARM STORAGE FACILITY LOAN PROGRAM

AND

MOBILE DRIER LOAN PROGRAM

Loans under these programs are designed to help farmers obtain needed farm storage. Under these programs, farmers can borrow a large part of the cost of additional farm storage space and drying equipment.

To be in a position to hold their grain for orderly marketing and to take advantage of the price support programs, farmers must have adequate storage. Right on the farm is a good place for this storage in most cases.

Since the inauguration of farm storage facility loan program in June, 1949, a total of 4,773,000 bushels of new farm storage has been erected through these farm storage facility loans in Wyoming. 328,000 bushels of this new storage was erected in the last year by 58 producers.

Cumulative summaries, by county, follow:

PART V

1959

NATIONAL

WOOL

PROGRAM

GENERAL--This was the fifth year of operation of the program authorized by the National Wool Act of 1954. The incentive level announced for the 1959 marketing year was 62 cents per pound--the same as in the 1955, 1956, 1957, and 1958 marketing years.

INCENTIVE PAYMENT--The incentive payment is an amount which is sufficient to bring the national average price received for wool sold in the marketing year up to the announced incentive level. The national average price received by producers and the incentive payment rate for each of the marketing years is as follows:

Marketing Year	National Average Price Received by Producers (cents per lb.)	Shorn Wool Payment Rate (% x net proceeds)	Unshorn Lamb Payment Rate (cents per cwt.)
1955	42.8	44.9	.77
1956	44.3	40.0	.71
1957	53.7	15.5	.33
1958	36.4	70.3	1.02
1959	43.3	43.2	.75

AVERAGE PRICE RECEIVED BY WYOMING PRODUCERS

The average price received by Wyoming producers, after marketing deductions, for shorn wool was as follows:

Marketing Year	Wyoming Average Price Received by Producers (cents per lb.)	Marketing Year	Wyoming Average Price Received by Producers (cents per lb.)
1955	39.1	1957	52.2
1956	41.7	1958	36.3
		1959	43.3

SUMMARY--The following tables give a rather complete story of the wool program as it applied to the State of Wyoming. The tables on the 1958 marketing year have been revised to include late-filed applications that were approved for payment. The tables on the 1959 marketing year are subject to minor changes if any late applications filed between July 1, 1960 and September 30, 1960 are approved for payment.

PART VI

1959

SOIL

BANK

PROGRAM

This is a summary report of the conservation reserve program of the soil bank for the calendar year 1959. The Agricultural Act of 1956, Public Law 540, 84th Congress, approved May 28, 1956, established the conservation reserve program.

The conservation reserve program of the soil bank is one of the tools being used to reduce agricultural surpluses. Its primary purpose is to divert land from the production of crops. It also provides assistance to farmers in establishing and maintaining protective cover or other sound conservation practices on the land placed in reserve.

The conservation reserve is a voluntary program, under which the participating farmer signs a contract to withdraw a specified acreage of cropland from production for a period up to 10 years. He also agrees to comply with any acreage allotments on his farm and to reduce his total crop acreage by the amount of the land placed in the reserve. The farmer also agrees to provide adequate vegetative or other approved conservation cover on the land placed in the reserve. Under this contract, the Federal Government agrees to make an annual rental payment for the land held out of production and to assist with the cost of establishing the conservation reserve practices on the reserve acreage.

Approximately sixty-five thousand acres of cropland in Wyoming were added to the conservation reserve in 1959. Nationally, only about two-thirds of the cropland offered for 1959 contracts could be accepted within the funds available and a bid and acceptance system was used to give priority to producers making the best offers.

Prior to 1959 only about twenty-two percent of the farmers participating in the program in Wyoming placed all their cropland in the reserve. However, about eighty percent of the farmers signing contracts in 1959 placed all their cropland in the reserve. This was chiefly due to higher rental payments per acre for the entire cropland in the program.

These greater incentives for entire eligible acreage participation brought more farmers and more good quality land into the program. A farmer who places all his cropland in the conservation reserve can continue to live on the farm, maintain a home garden and use the non-cropland pasture. Placing the entire eligible cropland in the reserve removes the entire crop production potential of the farm, including the allotment crops, since none of the acreage is left for more intensive farming.

Grass cover continues to be the most popular of the conservation practices carried out on the conservation reserve land.

The following tables show the degree of participation for 1959 and accomplishments of the conservation program from its inception through December 31, 1959.

PART VII

1959

FEDERAL CROP

INSURANCE

PROGRAM

Federal Crop Insurance was available for the 1959 crop year for the following crops and counties:

Wheat -- Goshen, Laramie and Platte counties.
Multiple -- Platte County.
Beans -- Goshen County.

There was favorable loss experience on all crops and in all three counties during 1959.

Previous years' experience from 1947 through 1958 shows that drouth accounted for approximately 40% of losses with hail second with 27% followed by winterkill and wind.

The bean crop in Goshen County suffered some loss due to an early freeze and many farmers reported a total loss.

Mrs. Virginia Flinn has been appointed Service Agent for all three Wyoming counties. Her office is located at 125 East 20th St., Bump Building, Torrington, Wyoming.

The multiple crop insurance program has been discontinued in Platte County, Wyoming, beginning with the 1960 crop year.

Program	Counties	Number of Policies in Force	No. Units Earning Premium	Amount of Premium (dollars)	Number of Units Indemnities	Amount of Indemnities (dollars)
Wheat	Goshen	220	154	32,788	33	9,301
Wheat	Laramie	176	152	15,407	4	609
Wheat	Platte	136	70	8,914	4	971
Multiple	Platte	31	26	1,130	2	200
Beans	Goshen	263	186	10,037	26	4,302
